FRIDAY, MARCH 4

The "tone of voice" of the street committee of the city council Wednesday evening would indicate that they propose to do a little work on the streets. The News would respectfully refer the able body to the voluminous amount of dust on Wylie street, caused by the "squeezed coat" having become powdered under heavy and constant traffic.

The residents on this street were hoping that heavy rains would wash the dust off but it seems that there is too much dust for the rain and a fire hose will probably be required to make conditions livable on this thoroughfare.

A Drive For Library.
A drive will soon be put on to secure funds for the continued operation of the Chester Free Library, which is one of Chester's greatest assets.

It will be necessary to secure something like \$1,000 to continue the work for another twelve months and it is felt that in view of the good work done by the library during the past months that this amount will be forthcoming.

During the past eight months the library has placed 6,608 books in circulation, an average of over 800 per month. 200 books have been donated to the library during the year and fifty purchased. Approximately 2,500 volumes are now on hand.

The following is a statement of the receipts and expenditures:

From Volunteer Subscriptions	\$972.74
Disbursements:	
Salary (Librarian 10 months)	\$500.00
Repairs	32.70
Printing	34.75

MRS. E. D. WELLS.

Friends throughout the community were saddened and shocked to learn of the death of Mrs. E. D. Wells, who passed away at about nine o'clock Friday night at the Chester Sanatorium. She was ill only a few days and her condition was not known to be serious until Friday morning. Friday afternoon she was rushed to the Sanatorium, where surgical aid was rendered, but she lived only a short while before regaining consciousness. The deceased was the wife of the Rev. E. D. Wells, the beloved pastor of Beaver Creek and Cool Branch, Baptist churches of the Chester association. They were married in Columbia, S. C., in 1890 by Dr. C. C. Brown. She was (62) fifty-two years of age at the time of her death. Mrs. Wells before her marriage was Miss Grace K. Brown, son, daughter of the late Mr. and Mrs. W. G. Brownson, of Toledo, Ohio.

Ever faithful in her efforts to fol-

low her duties as a minister's wife. She was a woman whose life long devotion to the principals of righteousness and her sympathetic interest in the welfare of others had caused her to be loved by all who knew her. She was always thoughtful of those afflicted, of any one shut off from the pleasures of life in any way. In no way can we better describe her home, than by the same which she herself called it, "The Sunshine Shop." Many a wounded soldier during the war was comforted and cheered by a message from this shop.

Only those who have known her most intimately since 1901, when she and Mr. Wells came to take up the work here, can appreciate her faithfulness to her community and her churches, including every department especially "The woman's Missionary Society."

In the presence of a large company of sorrowing and sympathetic friends, burial services were conducted from Beaver Creek church Sunday afternoon by the Rev. J. H. Yarborough assisted by the Rev. Jesse Pittman. The following acted as Pall

bearers: Honorary, Dr. C. A. Crosby and Messrs. J. S. Stone, N. H. Stone, A. B. Durham, C. E. Paul, J. W. Weir, S. H. Banks and E. T. Boulware, Jettie, Pierce Stone, Paul Durham, Harvey Weir, George Widener, D. F. Crosby and Charlie Beem.

The deep interest, the large attendance and the beautiful floral offerings which blanketed the grave were testimonials of the high esteem in which she was held.

IMPEACHMENT OF LANDIS?

Washington, March 1.—A sub committee of the house committee on judiciary today took under consideration the question as to whether Judge Landis was a subject for impeachment because he is serving as baseball arbiter while on the federal bench.

Mr. Edgar Healy, special representative for the Sylvan-Adolph, Klauber attractions is in Chester arranging for the presentation of "Nightie Night," the latest and best of all New York Princes Theatre successes, which comes to the Chester Opera House, Monday night, March 14th. Advance reports proclaim "Nightie Night" as the most sensational hit of many seasons, in New York where it played to crowded houses for upward of a year, in Chicago for six months, and in every city it has played this season it has won unstinted praise from the critics, who unanimously pronounce it the funniest and cleanest play ever produced. According to Mr. Healy, "Nightie Night" comes here with the original New York production intact, and the exceptional cast that has been taking the country by storm, leaving good humor and laughter in its train.

A dispatch from Washington says that efforts to override President Wilson's veto of the Forney emergency tariff bill failed in the house early this morning and the measure, originally designed to aid the farmers thereby not to death. The measure was purely Republican and would have been of no benefit to the farmers, but of benefit to the monied interests of the country.

Many who attended "The Merchant of Venice" given at the Chester Opera House last Tuesday evening stated that it was the best cast they had ever seen in Chester. Those who made this statement were correct as there is no question, but Fritz Lohrer and company were the best ever brought to our city. In fact New York City with its population of more than three times that of South Carolina, revel over this cast and are anxiously awaiting their return on Easter, when they will be given another opportunity to see the best production of the Shakespearean play that the older people, as more than half of those present for this wonderful production by a wonderful cast, were children.

COUNCIL MEETING

The regular monthly meeting of the city council was held Wednesday evening with the Mayor and all of the councilmen present. This is the first meeting the council has had for several weeks and the minutes included both January and February business, were read.

The police fine for January amounted to \$1,502.50 and for February \$667.50. A number of those who were tried in the Recorder's court during these two months were sent to the county jail under the arrangement existing between the City and the county authorities.

A communication from Mr. A. W. Wize with reference to water from the rear of the city stables running across his property was referred to the Health department for handling, a report to be made to the council.

Mr. R. L. Douglas, city recorder for the past two years, sent in his resignation, stating that he could not afford to continue the office under the present salary, \$22.50 per month. Previous to the meeting the matter had been talked over with Mr. Douglas and he decided that he would continue the office for \$50 per month. In order to comply with the law, which prohibits the raising of a city official's salary during his term of office, the resignation of Mr. Douglas was accepted and he was then elected at a salary of \$50 per month.

Parties have made inquiries as to the purchase of the old clock bell, which was given to the city by its citizens several years ago. In view of the fact that the bell was a gift and also that it might be needed at some later date council decided not to sell it.

The smoke stack at the pumping station recently fell on account of having rusted and a new one has been erected at a cost of \$150.

The matter of repairing a culvert of Hinton street which recently washed out, was discussed and although the council had a bid for repairing it, they thought the bid rather high and will make an effort to get work done cheaper. The matter was referred to the street committee with power to act.

A petition from property owners on and around Walnut street was presented asking that a light be placed on that street, opposite the Southern Railway passenger station. This was referred to the public works committee with power to act. The location of a light on Oakland Avenue was also referred to the above mentioned committee. At this point the poor lighting afforded at the Southern Railway passenger station was discussed and it was the opinion of council that the railway company should provide better lights for their passengers getting on and off the trains at Chester.

Mr. J. M. Bell appeared before the council with a street intersection and stop-sign and offered to place them at various points in Chester free of charge. The city grant him the privilege of using a space at the top of the sign for advertising purposes. The sign is funnel-shaped and the interior of same is made of concrete, the sign weighing about 500 pounds. Mr. Bell was given permission to place the sign at points designated by the city.

The condition of Walker street was again brought before the council and owing to the narrowness of the street and the deep side ditches it was decided to make it a one-way street until something could be done. Traffic will be ordered to run the street from Center going to Wylie.

Mr. Peay, member of the street committee, brought up the purchasing of a sign for the street department.

ment, being desirous of doing some work on the side streets of the town, which are now in very bad condition. Capt. Boldridge, of the Health department, has had charge of several bands sweeping the streets and the street committee stated that if this labor was going to be charged to the street department they wanted change of the men as a matter of fact the street committee showed that they were dissatisfied with the manner in which the work was being done and stated that they would either "clean up or clean out" the street sweeping bunch. The matter of pay for this labor was also discussed and it was intimated that a cut was in order. This department will also look around for the purchase of a light road scraper.

After some discussion on motion of Mr. Peay, seconded by Mr. Estes, it was decided to extend the time for payment of city taxes to conform to the act recently passed by the General Assembly.

A cement sidewalk on the North side of Selma street was also discussed but council decided that owing to present financial conditions the city would not at this time attempt to do the work.

Two members of the council were of the opinion that the Health department had spent too much money during February and Captain Boldridge will be instructed to get the expenses down to the lowest possible level for the present. A little later on this department will be called on to keep down mosquitoes, flies, etc. and it was the present rate of expenditures kept up in this department it would be unable to accomplish the required results during the coming summer months. In order to reduce expenses in this department the services of Health Officer Minter were dispensed with, cutting the expenses \$115 per month. The work formerly done by Mr. Minter will be done by Captain Boldridge.

The speeding of automobiles and the use of cut-outs came in for a round and the policemen will be ordered to keep a better look-out for violators of the automobile ordinances. The public works committee was ordered to go ahead with the repair work at the filtering station caused by the fire of January 14th, assurance having been received from the insurance company that a satisfactory settlement would be made.

MAN IN ANDERSON SWINDLE VICTIM

Alleged Fortune and Daughter of Kinsman in Spain Arrows Suspicion

Anderson, March 2.—R. W. Pruitt of this city received a communication some months ago from an alleged kinsman in Spain telling him that he had been wronged in a political difficulty and felt that he was going to die and that he had a young daughter and a fortune which he wanted his Anderson kinsman to look after. Mr. Pruitt was urged to answer by the one, word "accepted."

Mr. Pruitt answered by cable as directed and then more complications followed. The man had died and had left minute directions to a priest who was to carry out these directions in regard to the fortune and the daughter. First, however, the fortune was in a trunk which had been confiscated by the government and that it would take \$900 to get the trunk out of the custody of the government. Would Mr. Pruitt kindly send a certified check for this amount?

At this stage, Mr. Pruitt became suspicious and while he says that he hates to think of his kinsman's daughter being left in a pitiable plight he can not send the money to the priest because he believes there is fraud.

Mr. Pruitt has sent all of the communications to the Spanish ambassador in Washington, asking that they be returned later. The ambassador says he can not return the communications as requested as he has sent them to the police authorities in Madrid in hopes that the author or authors may be brought to justice. He will call the attention of the court to the matter and if possible will return the documents to Mr. Pruitt. All that has cost Mr. Pruitt so far is the cost of the cable message, which was about \$7.

CAMDEN OFFICERS ARREST SOLDIERS

Camden, March 2.—Sergeant Robert Franklin, Private Stearns and Private Joseph Dorigy of Camp Jackson were arrested here this morning charged with assault and robbery of H. U. Earl, transfer driver of Columbia, 12 miles west of Camden Tuesday night.

The driver was assaulted and left for dead, robbed and his car stolen. After driving the car several miles it went into a ditch. The three men were arrested in the Seaboard passenger station where they were waiting to take a train. All three were heavily armed and a suit case left in the stranded car contained eight army revolvers and five army field glasses.

Earl was not very badly injured and was able to return to Columbia last night. He said he was beaten up and robbed by three soldiers while driving here from Columbia.

The men were arrested by Deputy Henry McLeod, Constable Stokes and Police Officer U. N. Myers. They are being held in the county jail.

The car was located last night where it had been driven into a ditch and was practically uninjured.

REGRET LOSS OF PASTOR

Edgfield Hears Resignation With Regret—Pastor Leaves in April

The following dispatch is from Edgfield, and is dated February 22nd:

"At a conference of the members of the First Baptist church Sunday morning, immediately following the resignation of the Rev. R. G. Lee, D. D., presented his resignation as pastor take effect the first Sunday in April. Dr. Lee stated that he deemed it his duty after prayerful consideration to accept a call to the Baptist church of Chester. The entire congregation was deeply moved by the resignation and it was reluctantly accepted, as the church has never had a pastor who was more beloved than Dr. Lee. In his resignation he requested that he be permitted to have a part in the selection of his successor. It is the desire of the church that the pastorate be filled as early as possible in order that the incoming pastor may be able to take up the work where Dr. Lee leaves off. To that end a committee was appointed, consisting of Dr. Lee, O. Sheppard, D. B. Hollingsworth, B. R. Jones and W. A. Strom, to suggest a suitable person to the church as Dr. Lee's successor."

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

Meat — then and now

"THE meat peddler" of the old days, who killed his own live stock and then sold the meat from the tail of a cart, is gone from our large business and cities. He was a pioneer and did good service but he couldn't keep up with his job. Crude methods had to give way to new ideas in sanitation and distribution.

Concentration of population drove the peddler with origin out and brought the modern packing industry and the neighborhood retailer in his place.

And the modern packing business means that

That near the farms and ranches, the centers of live stock production, are packing plants that assemble and merchandise the meat products you use.

That swift and sanitary refrigerators can carry your meat from these packing plants to every part of the country.

Distant to towns and villages are supplied directly and regularly from these refrigerated cars.

And to cities the refrigerator car is unloaded into branch houses, chilled and sanitary, from which deliveries are made to your meat shop. And all the time the meat is kept so chilled that deterioration is prevented.

Swift & Company's plant and methods are co-ordinated, interchangeable supply and service for each other when necessary, so that no section of the country may ever lack its daily meat.
